

Designed to save our most valuable resource - water.

DYECARE™ 1.0

sustainable & innovative yarn

DyeCare™ **takes sustainability to the next level.**

DyeCare™ yarn is a **perfect innovative and sustainable substitute** for batch dyed yarns even for most challenging knitting or weaving applications.

100% RECYCLED

DyeCare™ yarn is **made from 100% recycled PET bottles.** With carefully designed dying process we further reduced our impact on the environment.

VERIFIED SUSTAINABILITY

DyeCare™ dyeing **process saves 51% water, 34% gas and 21% electricity.** The savings were verified by BureauVeritas.

GRS CERTIFIED

Beti and our DyeCare™ **100% recycled PET yarns are GRS certified.**

GOLD INNOVATION AWARD 2021

DyeCare™ won the regional **Gold Innovation Award.** The 'level of innovation, benefits for the user, value and rational use of energy and resources' is what convinced the jury.

Made of 100%
recycled polyester.

DyeCare™ stands for **sustainability without compromise.**

Special yarn processing assures **excellent performance** of DyeCare yarn in further knitting or weaving applications.

Advanced Dos&Dye robot Industry 4.0 guarantees **fast, efficient and accurate recipe preparation.**

Upgraded dyeing machines with continuous water-flow monitoring systems ensure **balance between cost and quality.**

The characteristics of DyeCare™ yarn are fine tuned to give **balance between stretch and pleasant touch.**

We take sustainability seriously.

Beti is a **responsible partner offering quick and quality support** on your journey to circular economy.
